

# KIRKLAND

## AIR CONDITIONING & HEATING INC.

### Energy Savings Agreement

The Kirkland Energy Savings Agreement is designed to provide factory recommended care to ensure that your Heating & Cooling equipment will operate at it's maximum potential.

When you enroll with the Kirkland Energy Savings Agreement you immediately become a preferred client and the Kirkland service department will activate your service program. Twice per year we will perform an energy savings inspection on your Heating & Cooling system. The Spring/Summer inspection will be for your Cooling system. The Fall/Winter inspection will be for your Heating system.

### Why you need KESA agreement:

1. To provide factory recommended care for equipment.
2. To restore & maintain peak efficiency.
3. To prolong equipment life.
4. To correct minor problems before they become major breakdowns.
5. To inspect for cracks in the heat exchanger. Cracks in the heat exchanger may allow harmful carbon monoxide into the home. (Gas furnace only).
6. To check the refrigerant in the air conditioner or heat pump to ensure that the system is operating at the proper level.
7. To protect your manufactures warranty, as the manufacturer of your system requires up-keep on your system to validate your warranty parts.
8. Reduces your fuel & electric bill.
9. After one year of installation there will no longer be a diagnostic charge if there is an actual equipment failure, during regular hours.

### Preferred Clients Receive:

- Year round priority service
- Twenty-four hour emergency service seven days a week
- Automatic 10% discount on all parts & labor required for repairing your equipment beyond the scope of your Kirkland Energy Savings Agreement inspection (s). Parts discount only applies during our regular business hours of Monday-Friday 8:00am- 4:30pm. Holidays are excluded from the parts & labor discount.
